Sir/Ma'am,

I am sharing my profile with you in response to the opening for an Engineering Management position at your company. I am looking for opportunities to enhance my skill set as a full stack developer and a product person, polish my already acquired skills and be the best of use to the organization at the same time. I believe I bring a strong prospect for the position as it's promising for both of our interests. Below is a fully detailed CV of mine. I look forward to hearing back from you and I thank you for your time.

PROFILE

Web and hybrid mobile app full-stack developer turned product leader with 6+ years experience predominantly in early, mature stage startup companies, working in high paced environments. Looking to help make great products. The satisfaction from making or fixing something is the driving force for me.

SKILL SET

LEADERSHIP

- Requirement analysis and realisation of ideas to projects from scratch.
- Dev cycle management experience with know-how of full stack development, operations, maintenance & scaling.
- Efficient communication between end users, management and developers.
- Team building and management using modern tools like Jira, Asana, Trello.

TECHNICAL

- Languages: JavaScript (ES5,6+), HTML, CSS.
- Frameworks & Libraries: Angular, Vue, Ionic, jQuery, Sass, Bootstrap.
- IDEs: Brackets, VS Code.
- Build Tools: Webpack, Gulp, Cordova.
- Version Control: Git.
- Concepts: OOPS, λ - Functional Programming, MVC, Databases, Backend, Scripts, Unit Testing, Performance Testing, SDLC Waterfall, Agile etc.
- Novice: React, Java, Spring, NodeJS, MongoDB, MySQL, CI/CD - Jenkins.
